About Us

Robran International is a premier exporter of Australian meat and food products, proudly serving over 40 countries worldwide since 2000. Specialising in wholesale trading, we have built a strong reputation across the global meat industry.

Our extensive product range includes Australian beef, lamb, mutton, goat, pork and chicken, as well as specialty game meats and a range of dairy and seafood products. Through long-standing relationships with suppliers across Australia, we ensure a consistent supply year-round.

From small grocery stores to the world's largest burger chains, Robran's customer base is diverse. Our industry expertise is unmatched, allowing us to cater to specific needs — whether that's high-quality chilled beef for the hotel and catering trade, or lean grinding beef for burger manufacture. Whatever your requirements, Robran International has the knowledge and capability to deliver.

It's All About Service

Robran International brings many years of experience in global food trading, focusing exclusively on trading, shipping and documentation within the industry. Our deep understanding of primary production in Australia allows our traders to navigate the seasonal and regional factors that affect meat production, ensuring we meet your specific needs.

With a well-established supply base, we connect you with a wide range of Australian producers to fulfil your requirements. Once a product is contracted, our dedicated shipping and documentation team works diligently to ensure every step of the process is completed quickly and efficiently.

Australian lamb, grilled and ready to serve

Quality Assurance

Robran International is licensed by both the Australian Quarantine Inspection Service (AQIS) and AUS-MEAT. AQIS provides certification of meat products exported from Australia and assures standards of hygiene and compliance with importing countries' requirements through on-site inspections of registered export establishments. AUS-MEAT is responsible for establishing and maintaining the National Industry Standards for meat production and processing.

Halal Slaughter

The Government Supervised Muslim Slaughter System is controlled by AQIS. The program ensures the segregation and integrity of Halal product, identified by an official Halal stamp applied to the carton or carcass. Robran International is able to supply a wide range of certified Halal meat and offal products.
